### and what have you

by BOB CRAIG

An open letter to Bob Craig, Editor The Hamlin Herald.

Re: "News and Views . . . and What Have You" October 26, 1961.

In the above mentioned column you made several statements, or implications which the parents, students and ex-students of H. H. S. cannot agree with!

You imply, and a great many people seem to agree, that the band is a secondary agency for the athletic department. The band cannot be dependent on the football team! Certainly a great deal of the band's time is taken up by their efforts to entertain at athletic events, they are greatly responsible for much of the spirit we all feel when the Pipers play. At the same time the band does have a program of their own learning to make and appreciate music. Hamlin can be proud of the awards our band has won in competition the past several years. We have all enjoyed their annual concerts.

From the time the band was formed in 1949 until the new gym and band hall was completed in 1958, you certainly cannot say they worked under pleasant conditions. The different bands met in cafeterias, auditoriums and an abandoned grocery store! The taxpayer has not in any sense of the word been extravagant with them, so why not get out and make money by selling nuts? They are very good nuts!

The senior class has sold Christmas cards to the people of Hamlin for several years. These cards are very attractive and they always have a very good selection. It might also be noted that these cards can usually be gotten with the purchasers name printed inside at less cost than at the local printers.

The idea of a class or organization being wholly dependent on dues from each member seems to be rather anemic. Revenue from some source is necessary and what better way of obtaining this revenue is there than that of our forefathers capitalism? If our country has survived it these years, surely our students can learn something of it while they are students. Most young people come face to face with retail sales while earning money for some class or organization while in school. The items sold are always quality products, reasonably priced.

Perhaps you have explained your views by stating "To an observer on the Outside." You make this statement by way of prefacing your attack on another Piper institution, the Senior trip. You aren't the first to do so. What better use for the time of the students do you suggest than that of raising money? At no time can I recall a faculty members complaint on their time being spent in this manner.

The senior trip is the one thing all students look forward to. Not only as a reward for twelve years of schooling completed, but as an accomplishment of a complete group. It is responsible for much of the high morale our school is noted for. The culmination or apex of a united effort, the frosting on the cake of their education. It is also a chance for many students to see a part of their country which they have never seen. Our school program boasts no other single thing that can solidify or boost the morale of our students as can the senior trip! This is very definitely worth the effort spent on the "questionable" senior trip!

How can we question the ambition shown by these young people to work for something they want? It would be another matter entirely if these students were asking for donations; they are simply doing as you suggest "paying their own way." Can we truly complain because our young people are trying to be independent of something given to them. Congratulations would be more in order!

## McCAULLEY RITES HELD FOR J. A. BATES

J. Andrew Bates, 88, resident of Fisher County for 76 years, died Sunday at 6 a.m. at his home in McCaulley. He had been stricken with a heart attack.

Funeral services were held Monday at 3 p.m. at the McCaulley Baptist Church with the Rev. Gerald Tidwell, pastor, and the Rev. R. L. Reddin of the West Side Baptist Church, Roby, officiating ministers.

Burial was in the Hamlin East Cemetery under the direction of Hamlin Funeral Home.

Born December 23, 1873 in Denton County, Texas, Mr. Bates was married to Myrtle Pitts, July 28, 1901, in Snyder. He was a retired farmer and a member of the First Methodist Church.

One son preceded Mr. Bates in death in 1932. Survivors include his wife; one daughter, Mrs. Frank (Ruby) Allen of McCaulley; three grandchildren and 4 great-grandchildren.

Pallbearers were L. R. Myers, Reed Cooper, Junior Kiker, Frank Kemp, Mart Weaver and Joe McKinney.

## Three From Here To Attend Baptist General Convention

Three local ministers will be among the 5,000 Texas Baptists who will gather in Austin on November 7-9 to conduct the business of the 1½ million-member Baptist General Convention of Texas.

Main feature of the three-day convention, said Convention President James H. Landes of Wichita Falls, will be inspirational preaching, rather than controversial business.

Principal speakers include Dr. W. A. Criswell, pastor of the First Baptist Church of Dallas; Dr. Herschel H. Hobbs of Oklahoma City, president of the Southern Baptist Convention; President Landes and Howard Butt, Jr., Baptist layman and grocery chain executive from Corpus Christi.

Those planning to attend from Hamlin will be the Rev. and Mrs. Lenard Hartley of the First Baptist Church; the Rev. T. M. Harrell, pastor of the North Central Baptist Church and the Rev. Doyle Combs, pastor of the Fairview Baptist Church.

## B&PW Club Readies Christmas Seal Letters for Mail

Tuberculosis Associations all over the nation will soon be starting their annual sale of Christmas Seals to raise funds for the fight against TB.

Letters containing the seals for the Jones County TB Association were prepared for mailing by twenty-one members of the Hamlin Business and Professional Womens Club at a meeting held in the Farmers and Merchants National Bank Monday evening.

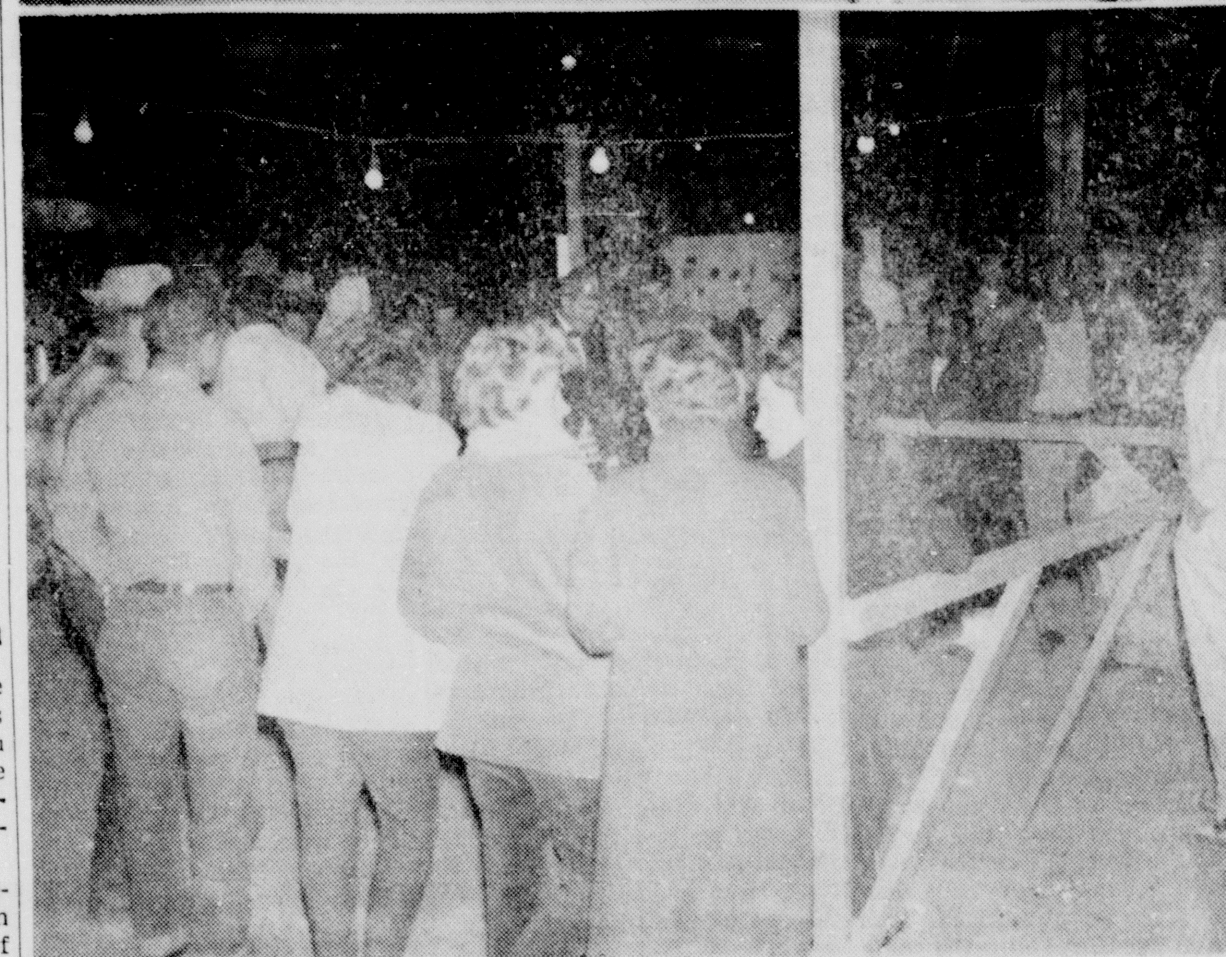

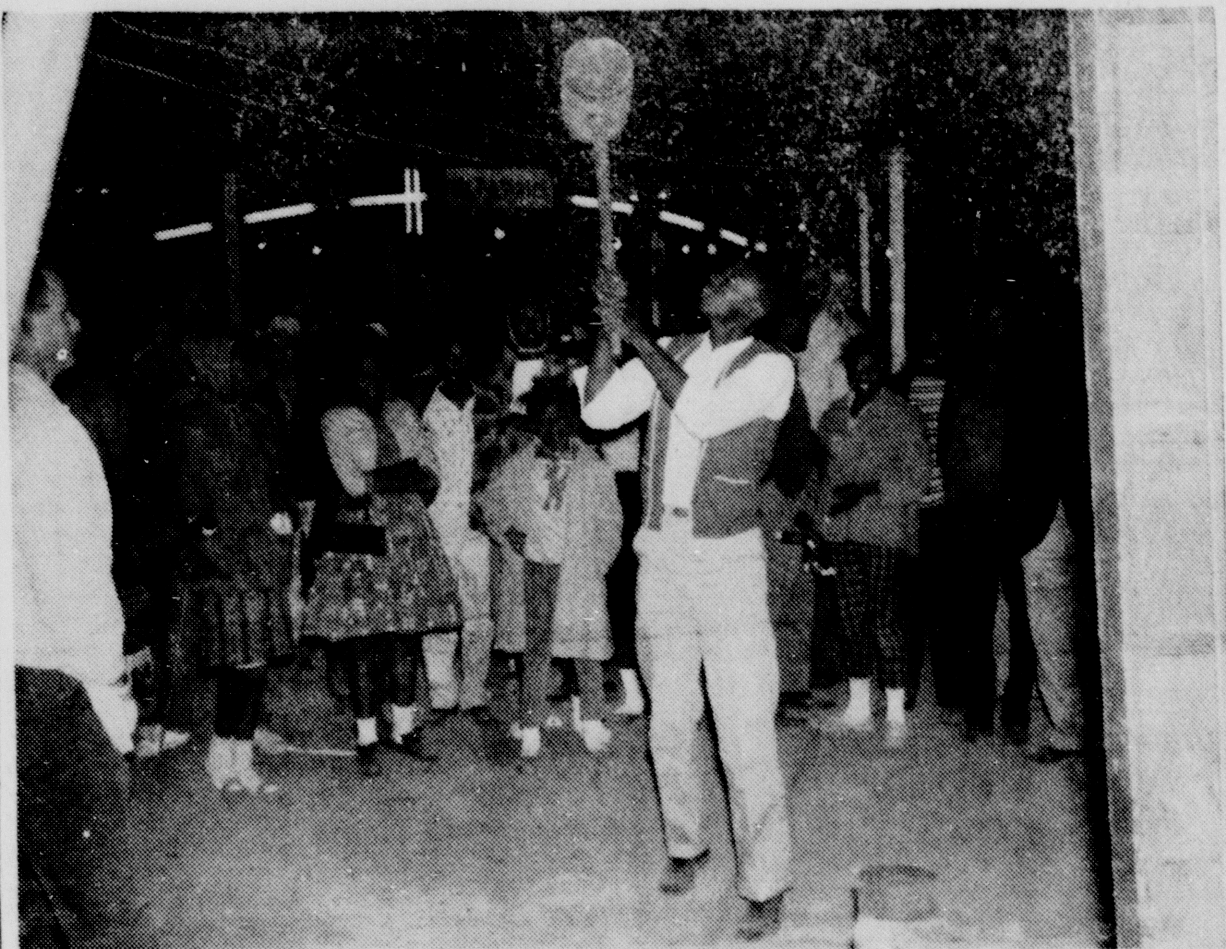

This service has been a project of the club for the past eight years.

The letters will be mailed November 13 and you are asked to remember that when you support Christmas Seals, you invest in your own good health as well as the health of your community.

## Man Knifed Near Here Tuesday

Jesus Gutierrez, of an unknown address, was treated at Hamlin Memorial Hospital for knife cuts inflicted by four men whom he did not know.

Local police received a call about the incidence at 5:18 Tuesday afternoon. Jones County Sheriff Dave Reeves was called in and is conducting the investigation. Gutierrez was on the highway between Hamlin and Neinda waiting for a ride when the four men stopped and started slashing him. The men then fled. There was a pick-up broadcast on the car.

**CARNIVAL CROWDS**—The Hamlin Jaycees were well pleased with the large crowds that attended their annual four-day Carnival this past week end. A small part of the nightly crowds are shown in the above pictures as the people tried their skill and luck at the many booths operated by the Jaycees. The club cleared between \$700 and \$800 on the carnival to be used on their projects during the coming year.

## MISS LANDRA BAITZ CROWNED OLD GLORY PIRATE QUEEN

Miss Landra Baitz, Old Glory Sophomore, was crowned Pirate Queen at the Pirate Coronation Tuesday night at the Old Glory Gymnasium with Miss Rhonda Baitz crowned Princess. The event was sponsored by the Old Glory Senior Class.

The Coronation program was opened by a Halloween Parade of Little Folks with first, second and third places being awarded in each of two age groups for the best costumes.

## DePriest Classes Resume Monday

Classes at the Oscar DePriest School will be resumed here Monday morning after a recess of three weeks.

Principal I. J. Starr made the announcement this week. The school closed Oct. 13 in order that the students could help in the area's crop harvest.

Winners in the pre-school through second grade were: first, Mark Cox; second, Dale Letz and third, Linda Bewman. Winners of the third through sixth grades were: first, Ricky Boles; second, Janice Rose; and third, Edwin Vorzalik.

A Quartet from Hardin-Simmons University furnished the entertainment for the Coronation.

Miss Landra Baitz was escorted by Donald Boles and Miss Rhonda Baitz was escorted by Larry Flow.

Other nominees for princess and their escorts were: Debbie Pierce escorted by Russell Letz; Regina Letz escorted by Herbert Wooldridge; Judy Sander escorted by Richard Cornelius. Nominees for queen and their escorts were: Marilyn Flow escorted by Stanley Diers; Sharon Levrett escorted by John Hunt; and Judy Garner escorted by Vernon Leverett Jr.

Tommy Letz was master of ceremonies for the program.

## Foursquare Church Hosts Banquet Tonight at School

The Cadet Crusader Banquet for the Foursquare Church will be held tonight (Thursday) at 7:30 in the primary cafeteria.

All churches in the Wichita Valley Division will participate in the affairs following the theme of Laborers Together With God.

The Rev. Spencer Liles, local pastor, will be the speaker.

## Principals Attend Abilene Meeting

B. V. Newberry, principal of Hamlin High School and Marvin Carlton, junior high principal, were among the 550 delegates to attend the Texas Association of Secondary School Principals convention held in Abilene this week.

The three day convention closed Tuesday after the group selected Houston as the site for the 1962 conference of junior and senior high school principals to be held Oct. 14-16.

## Pipers to Honor Dads Friday Night

Friday will be "Dad's Night" at Piper Stadium as the Pipers host the Spur Bulldogs in the final home game of the season. The Hamlin eleven was off last week while Spur was losing a close one with Haskell.

The Hamlin coaching staff is expecting the Bulldogs to go all out for this game since it is their final effort of the season and their last chance to come up with a district win.

The light Spur team builds

its offense around traps and delayed plays up the middle and long passes with their quarterback Richard Walker doing a fine job on the passes.

Curt Parsons runs from the left halfback slot and Joe Howell from the right halfback position to lead the ground game. Both boys are fine receivers and Sam Parsons, a 170-pound senior end, is a top-notch receiver and is Walker's favorite target.

On defense the Bulldogs run a four man line and drop seven men back on pass plays to do a fine job of a pass defense. The other strong point of the defense is in the middle of the line.

Coach D. C. Andrews reported Wednesday that Lanny Ford suffered an injury in Tuesday's

practice and is not expected to be ready for Friday night. Other than Ford the team is in good shape for the "Dad's Night" contest.

Last week's 6-AA grid warfare just continued to add confusion to the already confused district as Anson downed Stamford to place Anson, Stamford and Hamlin in a tie for second place behind unbeaten Haskell. The winner of this district will not be determined until the final games week after next with Stamford and Hamlin clashing and Anson and Haskell meeting. A Stamford win over Haskell this week will put the district in a four-way tie going into the final week providing Hamlin defeats Spur to hold on to their share of the title race.

## LIONS CLUB BROOM SALE SET TUESDAY

The Hamlin Lions Club will hold their annual Broom Sale Tuesday, November 7, starting at 8 a.m. The truck will be parked on the side street next to the F&M National Bank Building and the club members will conduct a door to door canvas Tuesday afternoon.

Ed Croan, club president, announced that Claude Lancaster will be in charge of the broom sale this year. The brooms are made by the Lighthouse for the Blind organization and money that is made locally on the sale is used by the club to purchase glasses for needy children and other youth projects.

## HALLOWEEN TERMED FAIRLY ORDERLY BY LOCAL POLICE

Halloween, 1961, has been termed as a fairly orderly night by Police Chief John L. McCurdy. He uses past years' events as his basis for comparison.

The "trick or treaters" came in droves as residents passed out candies and other goodies. The younger set were all dressed in costume for the occasion.

Four regular police officers plus six local firemen were on duty to prevent any major disturbances. The officers were on West Lake Drive several times to break up a gang of youngsters who were throwing rocks, chunks of watermelon,

eggs and water balloons at the passing motorists. At times there were as many as 50 to 75 youngsters in the group.

Chief McCurdy said Wednesday that the greatest hazards were the blockades which were placed across the streets and throwing objects at passing automobiles. These can cause serious accidents and youngsters need to realize that the results could be quite serious.

The quietest part of town was in the Northeast section where officers noted no activity as they made their rounds.

## Riding Club Plans Trail Ride Sat.

Members of the Hamlin Riding Club will meet at the Riding Arena at 2 p.m. Saturday, November 4, for a trail ride to Frog Park, where hot dogs and cold drinks will be served.

Those planning to attend are asked to call Reynolds Drug.

## WATER METER CONNECTIONS

New meter connections made in Hamlin this week according to records at City Hall were: Robert E. Lipeley, 138 S.W. First St.

Fred Allen, 732 S.W. First Street.

V. L. Proffitt, 52 N.E. Ave. A.

Mrs. Tommy Richey and children, Pam and David, of Hobbs, New Mexico have been visiting her parents, Mr. and Mrs. Ray Huling.

## 15-ACRE MARKETING QUOTA EXEMPTION NOT IN EFFECT

The 15-acre marketing quota exemption for wheat production is no longer in effect. J. Noel Weaver, Chairman, Jones County Agricultural Stabilization and Conservation Committee, underscored this statement this week.

"Many farmers still ask us about this at the ASCS Office," Chairman Weaver said, "and I want to emphasize this change in the law."

Under the 1962 wheat stabilization program, there is no exemption for a farm which has no 1962 wheat allotment and which did not have wheat for harvest in any one of the 3 years 1959, 1960 and 1961. On such a farm the entire harvested acreage of wheat would be subject to marketing quota penalty, Chairman Weaver said. Under previous programs, farms that produced no more than 15 acres of wheat for harvest were not subject to marketing quotas even though they

had allotments of less than 15 acres.

For 1962, the marketing quota exemption for a farm is the smaller of: (1) 13.5 acres, or (2) the highest acreage the farm had for harvest in the 3-year period 1959, 1960, and 1961. The operators of farms on which wheat acreage will be exempt from marketing quota penalty have been notified of acreage that will be exempt.

## Veterans Day Program Planned In Abilene

A special Veterans Day program will be held on Saturday November 11th and Sunday November 12th at the Abilene National Guard Armory under the sponsorship of the Association of the United States Army, it was announced today by W. F. Lindley, President of the Barkeley Chapter.

The local AUSA Chapter has obtained the cooperation of Abilene Chamber of Commerce, US Army, National Guard, and civic organizations of the community to present a special program.

A. E. Wyatt of Abilene, Program Chairman, stated that the weekend activities would commence with a flag raising ceremony at 11:00 a.m. November 11th commemorating the signing of the armistice.

The US Army's Nike Missile Battalion in Abilene will display a Nike Hercules Missile and other equipment. Self-propelled guns, howitzers, rifles, light and heavy trucks, and machine guns, recoilless rifles, other current and latest Army equipment will be displayed by the Texas National Guard.

## PIPER FOOTBALL SCHEDULE ANNOUNCED FOR NEXT YEAR

The 1962 Pied Piper football schedule has been released by C. F. Cook, superintendent, with the only change in teams to be Ballinger replacing Seagraves.

In the new lineup for district 6AA Winters and Ballinger have been added and Spur dropped. The original schedule called for Coleman to become a part to this district but they went into the district South of them which includes Brady.

Cook was named temporary

chairman of the reorganized district at their meeting last Wednesday.

The schedule for the next fall is as follows:

Sept. 7—Rotan, here  
Sept. 14—Childress, here  
Sept. 21—Spur, undecided  
Sept. 28—Cisco, there  
Oct. 5—Open.  
Oct. 12—Merkel, here  
Oct. 19—Stamford, here  
Oct. 26—Winters, here  
Nov. 2—Ballinger, here  
Nov. 9—Haskell, there  
Nov. 16—Anson, there

## 40 Years Ago--

A wedding of unusual interest occurred Saturday morning when Louie Hardy, son of Dr. G. S. Hardy, formerly of this city, and Miss Eva Lee Moore were quietly married in the home of the bride's mother, Mrs. R. D. Moore. Mr. Moore was injured in car accident. Sheriff Tom Hudson and Deputy Hap Sprayberry brought into Anson two corn whiskey stills. The booze making equipment was captured on farms about 7 miles northwest of Anson, one of an estimated capacity of 20 gallons per day and the other about 10 quarts.

## 25 Years Ago--

Kiddoes take train ride to Texas Centennial. When the Katy left Rotan there were 180 Rotan kiddoes bound for the Centennial. At Hamlin 100 Hamlin Pipers joined them and when the train pulled out of Stamford, it had 490 whop-whop, happy West Texasites off for the ride of their life. Many of these children had never been on a train before, and perhaps years have passed since the sponsors rode the iron horse. President Roosevelt led in the election in Hamlin with 523 votes to Gov. Alf M. Landons 8 votes. Roosevelt carried Texas 8 to 1.

## IT NEVER FAILS

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

AUSTIN—Aware of the fact that more money soon may be available for trunkhighway construction, 15 delegations of civic leaders descended on Austin.

They asked the Texas Highway Commission for a record number of dollars for highway work. Specifically, \$171,056,000.

Houston and Harris County, presenting a plan of freeway development designed to carry Houston's traffic in 1980, asked for approval of an \$89,400,000 program. That was the big one. But all of the 14 other projects were equally as pressing to the homefolks, even though less money was involved.

State Highway Engineer D. C. Greer feels that 22,000 of the 25,000 miles in the trunk-highway system are inadequate. He says that less attention has been paid to these "town-to-city" roads during the years in which urban freeways and farm-to-market roads have taken top priority.

Gov. Price Daniel brought the issue of highway financing to a head when he vetoed the \$15,000,000 Colson - Briscoe farm-to-market road appropriation. Legislators had appropriated it for the year starting next September 1.

Governor Daniel will ask the Legislature, at its special session this winter, to cut down on farm-to-market road construction and step up the money available for trunk-highway work.

Texas County Judges and Commissioners Association has endorsed the change.

Governor Daniel will go in person to the Texas Farm Bureau convention in Galveston November 12-15 to try to get that powerful rural group to accept the plan.

**BUSINESS COMING BACK**—A steady growth in Texas retail trade in 1961 is reported by the Bureau of Business Research of the University of Texas.

Despite a Gulf Coast slowdown in September, due to Hurricane Carla, retail sales for the first nine months of 1961 pulled to within one per cent of the sales for the same period of 1960. First six months

a half times, from \$520,000,000 to one billion, \$200 million a year from 1950 to 1961.

In defense of the Legislature, he said it wasn't "free spending." Spending was necessary for essential programs like education highways, welfare, hospitals and the like, Ramsey explained.

Rep. Jesse M. Osborn of Muleshoe has some tax cutting in mind. In a letter to Governor Daniel he proposed that the State ad valorem tax be abolished, and the sales tax revenue be used to make up the gap.

So far, sales tax revenues have only begun to trickle in to the State Treasury. So the state's main checking account is still \$86,850,569 in the red. If good business conditions continue and income is up, it will still be more than a year before the deficit is erased.

**CATTLE RULES**—New rules invoked by the Texas Animal Health Commission are designed to protect area where brucellosis control programs are under way.

Under the new brucellosis control law, 78 counties, mainly in West and South Texas, have set up programs for testing herds. Purpose is to see if they have brucellosis, and to dispose of cows having the disease.

So the commission has notified truckers, livestock auctioneers and commission merchants that movements of cows into the certified control areas is restricted. They must have been tested and shown

See the Chevrolet Golden Anniversary Show—CBS-TV—Friday, Nov. 3, 8:30-9:30 p.m. E.S.T.

New sales tax will provide part of the added money, McGrew predicted. Other taxes will just about produce the extra money. But it will require some economizing to make ends meet in the 1963 session of the Legislature, in spite of the huge new tax.

Growth of Texas is the reason for the added spending. Growth means more children, more schools, more patients in mental hospitals, more college students, more cars and more highways to hold them.

More people mean more governmental spending to serve them. Railroad Commissioner Ben Ramsey, main speaker at the League's luncheon, said Texans should be commended for their willingness to accept the added tax burdens needed to finance education and other essential services.

Ramsey provided some startling figures. While he was lieutenant governor, presiding over the Texas Senate, state spending increased nearly two and

# NEINDA PHILOSOPHER DOUBTS IF MR. KHRUSCHEV CAN GET ALL HIS FARMING DONE IN 6-HOUR DAY

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 views the six-hour day proposed for Russian farmers. The six-hour day is something he may be an expert on.

Dear editor: As everyone pretty well agrees, the Russians are ahead of us in space and behind us in farming, and while I don't say this proves us farmers are smarter than our space scientists, still it's hard to argue with a fact.

But what I started out to free of brucellosis before they can be moved from an uncertified county into a certified county.

Then the new owner must keep them quarantined. He must have them retested in 30 to 60 days before he can put them with his herd.

Restrictions do not apply to steers, sprayed heifers, calves under eight months of age, and calves under 30 months which have been officially vaccinated against brucellosis.

**TEXAS MONUMENT**—A delegation of Texans headed by Governor Daniel will journey to Vicksburg, Mississippi, on November 4, to dedicate a \$100,000 monument to 35 Texans who played heroic roles in the defense of Vicksburg.

Ceremony will be a part of the Texas Civil War Centennial observance.

Monument was authorized by the voters of Texas in the 1953 constitutional amendment which switched revenue from the Confederate pension tax to a state building program.

Movement to build such a monument was started by Confederate veterans and was carried on for more than 50 years by the United Daughters of the Confederacy.

**TB CAMPAIGN**—Story of how one county has just about whipped tuberculosis was told at the Texas Tuberculosis Association meeting.

Bell County set up a chest clinic in 1954. Persons who had contacts with known TB patients were asked to come in for free check-ups. But if they did not come, warrants were issued to bring them in.

After 3,162 clinic visits, the program has located 64 new cases of TB over the years. But it has worked so well at checking spread of the disease that last year only one case was found when tuberculin tests were given extensively.

say was I read about Mr. Khrushchev's twelve-hour speech before a big Communist party gathering in Moscow last week, a six-hour speech one day, followed by another six-hour one the next day. That is, I read a few highlights; one of the choicest freedoms of democracy is the freedom to not listen to a one-hour speech by a politician, not to mention a 12-hour ordeal. And down toward the end, I noticed that Mr. Khrushchev has promised all the Russians, including farmers, that by 1980 they'll be working only 6 hours a day, five days a week, and he added, everybody will have paid vacations, including farmers.

Incidentally, he added also that if farmers don't start producing more right now, somebody's going to get sent to Siberia.

But what interests me most is this six-hour day Mr. Khrushchev is going to give farmers.

Now I have tried a six-hour day out here on this Johnson grass farm, and I like it fine, only I have found out that if everybody else tried it, I'm afraid the Secretary of Agriculture would stop worrying about too much food and start worrying about too little.

Maybe the present Russian

farmers are smart enough to work twelve hours a day and still produce a back-breaking surplus, but American farmers have never been able to swing it. The more they work, the more they produce, and the more they produce, the less they get for it and the longer they have to work to come out even.

I am afraid though that before Mr. Khrushchev gets all his farming done in a six-hour day, he's going to have to control the weather, produce a flat-free tractor tire, a perpetual battery, and an everlasting crankshaft, a dust-free carburetor, abolish insects and outlaw fishing, and I doubt if he'll be able to do that by 1980, which is only about 18 years away. If I was a Russian farmer and wanted to try the 6-hour day, I believe I'd cross the border.

Yours faithfully,  
J. A.

### LOCAL BUSINESS ...

S. S. Talbert, Ph. D.  
Chairman, Dept. of Journalism  
University of Mississippi

The rapidly changing habits of the American people is an important reason for an increase of advertising volume of approximately 10 per cent each year by the nation's retailers.

For example 50 million Americans hunt or fish, or take part in both sports. These hunters and fishermen spend four billion dollars on the two sports annually. Ten years ago only 20 million Americans were hunting and fishing and their expenditures were less than half of what it is today.

Thus, in one decade, one type of market has more than doubled. In other areas of recreation, such as boating and water-skiing the market has increased by ten-fold.

The official of one gasoline company estimates that vacation travel is consuming twice as much money as it did in 1950. One automobile fuel company is building its entire national campaign on an appeal to vacation travellers.

Throughout the United States in 1961, the traditional summer slump almost disappeared in the volume of newspaper advertising. Publishers generally traced the increased advertising to efforts of retailers to reach the booming vacation market.

Spending for recreation is only one area where American consumer habits are rapidly and constantly taking place. In fact, changes in buying habits range all the way from cat food to club memberships.

The business man who it not aware of this constant change is automatically left behind to nurse an enterprise for which there is no longer any demand. In a changing market neither the retailer nor the manufacturer can survive simply by changing his products. Each, through advertising, must convince the consumer that he is keeping up with modern demand.

Cork comes from the outer bark of a species of oak found in the Mediterranean area.

## PIPER PATTER

By SANDRA SMITH

Have you ever been awakened in the middle of the night—well, practically in the middle of the night, oh well, at 7:30 in the morning—drug out of bed and taken to a house where there were twenty other girls who looked just about like you did? Well, there were twenty-one girls who awoke to the sound of "Surprise! It's time to get up!" last Saturday morning when the FHA hosted a come-as-you-are breakfast for the freshman members. After their surprise awakening, the girls were taken to the home of Lou Ann Hawkins for hot chocolate and cinnamon rolls made by the second year homemaking class. During the business meeting, all the FHA girls were given their yearbooks, and the girls would like to tell Sandra Jayroe and her committee thanks for all the hard work they did to give us such nice yearbooks.

The freshman girls who were

so rudely awakened were Elizabeth Cunningham, Connie Jo Duncan, Mary Ann Elkins, Barbara Graham, Paula Kin, Mary Lois Patterson, Carolyn Reynolds, Marolyn Reynolds, Melba Scott, Nancy Tully, Mary Margaret Turner, Violet West, Diann Allen, Marjorie Ford, Jeannette Green, Linda Hallmark, Rhea Law, Linda Scott, Christy Wallace and Sharon Wheat.

# Ask Amy

BY AMY ADAMS

## COMPLAINING IS NOT ENOUGH

Dear Amy:

What do you think of a husband who doesn't let his wife know how much he makes in his work? He gives me grocery money but no spending money. He got so angry today when I opened two letters addressed to us both. It was two bills he owed and arrears in both of them. He says it's not my business how much he makes and owes out. He goes to the races thinking he'll win to pay back the bills, instead it gets worse. I work home, cleaning and cooking 7 days a week for him and our 3 children. He never takes any interest in his son's activities. He's either busy reading, going to the races or too tired. Since we were married (13 years), I haven't had a vacation and this gets me down in the dumps. I've been wanting to write you for some time.

The Former M.D.

Dear M.D.:

A marriage to be happy holds no secrets. His earnings and transactions are your business. If after 13 years, you haven't been able to change the pattern of his life, seek professional help through the Family Counseling Service.

Dear Amy:

I'm 21 and out of the service. Last fall I started working for a man who has a very good and well established business. When he hired me, he told me I would get a raise in 6 months and seeing I was getting only \$1.50 an hour, I could put in lots of overtime by keeping the shop open on Friday nights.

Now my boss tells me HE will keep the shop open Friday evenings and I should take 1 1/2 hours off for lunch instead of my usual 1/2 hour, to come to work at 9 o'clock instead of 8:30 and to take Wednesday afternoons off which was never done before. I don't get any pay for holidays such as July 4th while others in my profession do. No coffee breaks and I work from 9 to 6.

Also he is always complaining about his labor bill. To hear him talk, a person would think he is always going bankrupt. I know for sure he is far from it. I like my work here and I don't want to change jobs... unless I have to. What should I do?

STONEWALL BOY TO ATTEND NATIONAL POULTRY MEETING

College Station— Stonewall county will be well represented at the 1962 National Junior Poultry Fact Finding Conference by Jerry Kennedy and County Agent E. T. Hennig. Jerry was one of the four Texas delegates named to the Conference and Hennig will serve as delegation chaperon, according to the State 4-H Club Office announcement.

Donor for the Texas awards is Western Hatcheries, Dallas, Joe Fechtel, president. Nationally, the program is sponsored by the Institute of American Poultry Industries, Chicago. Other Texas trip winners are Randall Hines, Williamson county, Johnnie Winters, Brazos county and Vivian Warminski, Carson county. The Conference will be held in Kansas City, Missouri, February 8-11, 1962.

Jerry is the son of Mr. and Mrs. R. L. Kennedy, Route 1, Aspermont; a top ranking student in the local high school and the county's outstanding junior poultryman. He is completing his fourth year of a very active 4-H career. He is a Gold Star boy and the holder of many county and district honors and twice has competed in the state poultry judging contest. Last year he was the fourth ranking individual in the state contest and his team placed fifth.

The state award winner has changed his mind considerably about poultry production and marketing since he began raising chickens four years ago. He had an idea that the job consisted primarily of putting out a little feed, and after a few weeks, would come the pleasant task of eating a nice fryer. But he soon found this to be wishful thinking for his

education began even before he made. The Lions Club backed the first years program by providing 50 chicks for each participating member. Eight birds were returned at the end of the feeding period to defray this initial cost.

The number of broilers produced in the county has increased nine-fold and layers by 300 percent during the past four years. But most important, reports Hennig, the 4-H members and adults have learned how to produce a quality product the best and most profitable way.

The judging and demonstration teams which have won district and state honors were perhaps the first such teams ever trained in that county. Very few chickens of any type had ever been produced in the county prior to the initiation of the 4-H program.

Columnist Henry McElmore: "It's entirely possible to be killed at 10 miles per hour, but it's nowhere near as assured as at 70 or 80!"

office machines:  
the most complete  
line ever available  
from a single source

The wide range of Underwood standard and electric typewriters, adding machines, calculators, accounting machines and tape-to-card converters is assurance that we are uniquely able to provide the right machine for your specific work.

For example, we have three brilliant new Underwood electric typewriters—each with important, exclusive advantages. But when typing demands don't justify an electric machine, we are able to provide a new Underwood standard typewriter that produces high-quality general-purpose typing at exceptionally low cost.

No matter what your typing or calculating requirements, it's almost certain that one of our Underwood office machines can help reduce your office costs substantially.

For a demonstration of these new Underwood machines—on your own work, in your own office, at your convenience—call us today. We're here to serve you.

**underwood RAPHAEL:** An electric typewriter with automatic variable spacing and polyethylene carbon ribbon, designed to provide top management with typing of unmatched beauty, dignity and clarity. Operators quickly adjust to the Raphael, and appreciate such features as the title-centering scale and reverse tabulation.

**underwood FORUM:** An electric typewriter with standard spacing and both polyethylene carbon and fabric ribbons, for correspondence demanding typing of distinguished appearance.

**underwood SCRIPTOR:** A full-size fully-electric typewriter with fabric ribbon and standard spacing, designed to provide office management with general-purpose typing of high quality.

**underwood-olivetti LETTERA 22:** A super-light-weight portable typewriter with all important big-typewriter features including keyboard tabulation and basket shift; the perfect portable for traveling executives, students and home use.

**underwood-olivetti STUDIO 44:** A compact standard with all important office-typewriter features including full-size keyboard and keyboard tabulation, and yet easily portable; ideal for the professional office or the home.

**underwood TOUCH-MASTER FIVE:** A standard typewriter of handsome styling, exceptionally light touch, unusual operating ease and such advanced features as touch tabulation, designed for general-purpose typing of high quality.

**underwood-olivetti PRIMA 20:** a completely portable (8½ pounds) high capacity (99,999,999) 10-key adding machine with direct subtraction, credit balance indicator, column indicator, multiple-cipher keys, printed tape and other features not usually found in so low-priced a machine. Ideal for accountants, traveling auditors, small offices, and home use.

**underwood-olivetti ELECTROSUMMA 22:** A high-speed, high-capacity 10-key adding machine with automatic credit balance and direct subtraction that offers a number of advantages including column indicator, single, double and triple cipher keys, and automatic dates. The Electrosumma 22 also performs multiplication.

**underwood-olivetti DIVISUMMA 24:** A high-speed, high-capacity calculator with exclusive "memory" feature that eliminates manual re-entry of intermediate results in combined operations, saving time and eliminating a common source of error. Like all Underwood-Olivetti figure-work machines it prints an easy-to-read tape record of all operations for quick checking and inclusion with work sheets.

**underwood-olivetti TETRACTYS:** A dual-register version of the Divisumma 24 with a "memory." It performs all the operations of the Divisumma 24 and is able to handle complex combined operations. Its abilities include automatic accumulation of products and quotients.

## FAIRVIEW NEWS--

By MRS. ELMER JOINER

After three weeks of beautiful sunshine it is raining again this Monday morning. Farmers have been very busy with cotton harvest and sowing their wheat, but now they will rest and gather in town and visit and discuss the latest fashions in tractors, government programs, boll weevils, etc., over countless cups of hot coffee.

The Halloween party, sponsored by the Fairview church, was well attended, at the Oil Mill Guest House, Saturday night. It was a community-wide party, inviting all of our friends that wished to attend and several visitors were welcomed. The welcome and opening address was given by the

weather here Monday morning enough to stop the cotton gathering for the present time. Mr. and Mrs. A. J. French and boys spent Saturday and Sunday visiting Mrs. W. R. Clardy and Mrs. Charles Ballard and girls, Susan and Tommy. Mrs. Ballard and girls returned home with them for a visit.

pastor, Rev. Doyle Combs, followed by a devotional by Woodrow Goodwin. All those wishing to, visited the spook house then the program consisting of something for all ages was presented.

The highlight of the program was a debate on "Ghosts," the affirmative side trying to prove there are ghosts and the negative there are not ghosts. The affirmative won, so it was proven without a doubt that there are ghosts. A song by Mrs. Raleigh Bond and Mrs. Doyle Combs, accompanied by Linda Goodwin at the piano, was enjoyed by all. Jack Bailey was presented with his queen for a day program, Mrs. Jack Wright winning the prizes with her sad tale of fourteen children needing shoes, and with a shiftless husband that was a radio "Hound." Games were played, riddles asked and several other things rounded out the program of seriousness, combined with fun, as well as was befitting a Halloween party.

Sunday being the fifth Sunday, the pastor invited one of his friends and former room

mates, Rev. Hal Haralson, to morning and evening services. Rev. Haralson is employed in the public relations department of Hardin-Simmons University. He was accompanied by his wife and daughter, Jill. They spent the day with the pastor and family.

Mr. and Mrs. Mel Jones went to Sweetwater Thursday to visit their son, Bill Jones, then Saturday night they visited with another son, Rex, in Abilene. We hear rumors that they may soon go to San Diego, California to see their third son, Doyle. They have a grandson in Calif. they have never seen, so they have a treat in store for them.

Mrs. Jim Henry and daughters, Cathy and Judy, Oklahoma City, spent Saturday with Mr. and Mrs. E. A. Henry.

Little Johnny Combs spent Sunday with the Goodwins.

Visiting the Winsons Grays Sunday afternoon were Mr. and Mrs. W. H. Wilson and girls of Abilene.

Mrs. Charles Newland and children, Pecos, were visitors in the Bill Newland home Saturday night.

Mrs. George Wainscott has been working at the hospital the past week, she was filling in for Mrs. Hines while she had some time off.

Bill Goodman, cousin of the

Jack Wrights, was a visitor in church again Sunday.

Linda Goodwin visited with Suzanne Wicker Saturday afternoon.

It was good to see the Drake family able to be in church Sunday night. Miss Della reports that she is feeling better, but is handicapped with her failing sight.

Mrs. Earl Herbst visited with Mr. and Mrs. Elmer Joiner for a while Friday night.

not express the feelings of the parents, students and ex-students of Hamlin High School, I don't know.

Last week there was not content on the part of this writer to imply that the band was a secondary agency of the athletic department. It was only suggested that they might receive at least a small part of the gate to use to purchase jackets since they contribute their time and talents to help make this gate.

If selling under duress is learning salesmanship, or is the American way of life, then things are in a bad way.

A great many people have stopped me on the street and expressed their appreciation for what I said last week. Most of them are tired of buying things they don't want and don't need, but because the seller may be a good friend, or customer they are afraid to turn them down.

## LIVESTOCK FEEDING TOUR PLANNED TO WEST COAST

Plans for a Livestock Feeding-Tour into Arizona and California have been announced by Dean W. L. Stangel, chairman of the Agriculture and Livestock Committee of the West Texas Chamber of Commerce.

The tour is set for January 14-20, 1962, and will include the Phoenix, Arizona area, the Imperial and San Joaquin Valleys of California, and also the San Diego region, Dean Stangel said.

A special train will be made up for the tour, with Pullman sections originating in Fort Worth, Lubbock, Amarillo and Clovis, N. M.

The tour will have a two-fold purpose, according to Dean Stangel. The grain market development objective is given added importance by the fact that California already is the largest single user of Texas milo, and tour leaders and participants hope to further encourage that market.

In addition, the tourists will have an opportunity to inspect some of the vast livestock feeding operations which are so successful in Arizona and California.

"In some of these, you'll see Texas cattle being fed Texas milo and cottonseed products," Dean Stangel said. Thus, Texas

as producers should get some good ideas for utilizing their own products at home.

Members of the Arizona Livestock Feeders Association will be guests of the tour sponsors at a dinner meeting in Phoenix, and a similar program will have the California Livestock Feeders Association as guests in Bakersfield.

Cost of the tour for one person, including first class train fare, Pullman, club cars, bedroom facilities, hotels, chartered bus fees, two planned dinners and insurance will be \$246 for all points except Fort Worth. Participants originating in Fort Worth will be charged \$256.

All requests for reservations must be made by December 15, Dean Stangel said. Because of limited facilities, reservations will be made on a first-come, first-served basis. Checks payable to the West Texas Chamber of Commerce must accompany all requests for reservations and should be mailed to the Agriculture and Livestock Department, West Texas Chamber of Commerce, P. O. Box 1561, Abilene, Texas.

Joining the WTCC committee in sponsoring the tour are the Grain Sorghum Producers' Association, Texas A&M College and Texas Tech.

## UTILITY COMPANY OFFERS LINES FOR WARNING SYSTEM

West Texas Utilities Company is ready to participate in a country-wide warning system against enemy attack according to an announcement today by Cal Young, WTU president.

After an extensive study of NEAR (National Emergency Alarm Repeater) proposed by the Office of Civil Defense, the Edison Electric Institute of which WTU is a member, has recommended support and participation in the project. Young said that a study of NEAR shows "a warning system operation through transmission and distribution lines is a program in which our Company and the other investor-owned electric light and power companies can and should participate in the interest of national defense."

Young pointed out that the Institute in recommending participation characterized as a "very fair proposal" the statement made by Secretary of Defense Robert S. McNamara last August before the Military Operations Subcommittee of the House Committee on Government Operations. Secretary McNamara said "If extensive system tests in Michigan prove successful, it is proposed to begin national installations of this warning system, which operates on electric impulses imposed on regular power lines. Federal funds would be used to cover the cost of the signal generators. The receiver (signals) would be sold to the general public."

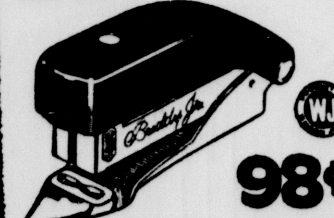

The basis of the NEAR project is a proposal of the government to install high frequency generators at strategic locations in the various electric companies' transmission and distribution systems. Small alarm receivers which would be purchased by individuals would be plugged into any ordinary appliance outlet on the electric companies' premises. In case of atomic attack, the generators would send a high

frequency impulse over the regular electric lines which would activate the alarm receiver in the customers' homes, offices, shops, etc. Young pointed out that this would in no way interfere with the usual electric service and that his Company would, under this proposal, offer the use of their transmission and distribution facilities without charge.

"I am sure that the nations' investor-owned electric light and power companies will offer the Office of Civil Defense their fullest cooperation in further testing of NEAR," Young noted.

## James Hagler Takes Part in Air Drop

McMURDO SOUND, Antarctica—Captain James E. Hagler, son of E. E. Hagler of Rt. 3, Hamlin, Texas, participated in the first airdrop of supplies to Byrd Station, 700 miles from the South Pole, as Operation Deep Freeze 1962 opened.

Captain Hagler, a C-124 aircraft commander, was aboard a United States Air Force C-124 Globemaster which flew from McMurdo Sound for the initial mission of the re-supply operation.

A former student of Tarleton State College, he entered the service in January 1953.
